Hospitality

## A SMART WEB CHECK-IN SOLUTION

TCA Innsist® Web Check-In enables a remote and simple pre-registration channel for guests, by integrating directly with the PMS system to provide greater control and efficiency during the Front Desk processes.

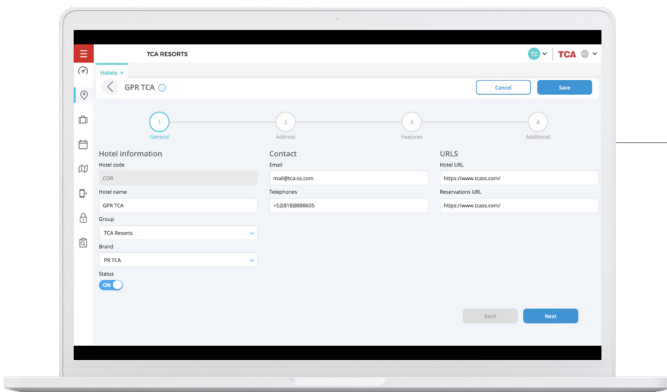

### GUEST CENTRIC

Enables a faster and safer check in process, allowing guests to quickly enjoy the experience and amenities offered by the property.

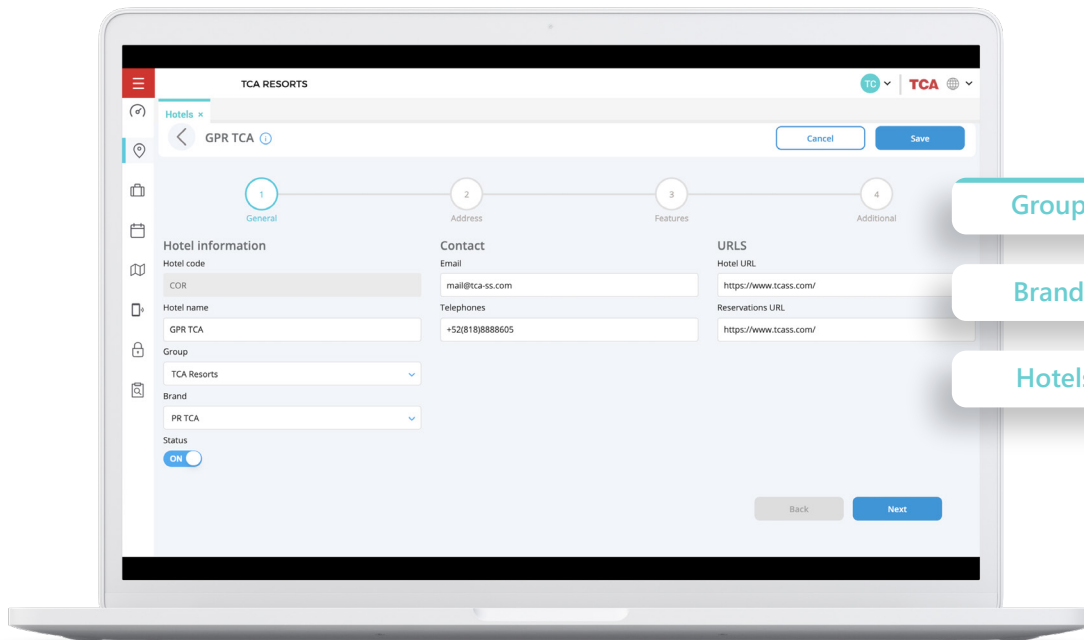

### BUSINESS DRIVEN

Allows faster, automated, efficient and safer check-in processes, while reducing waiting times and creating an excellent experience since the moment the guest arrives.

1

# CHECK-IN CONTROL AND CONFIGURATION HUB

## GUEST CENTRIC

Allows the guest to easily find and view information about the hotel and reservation they made.

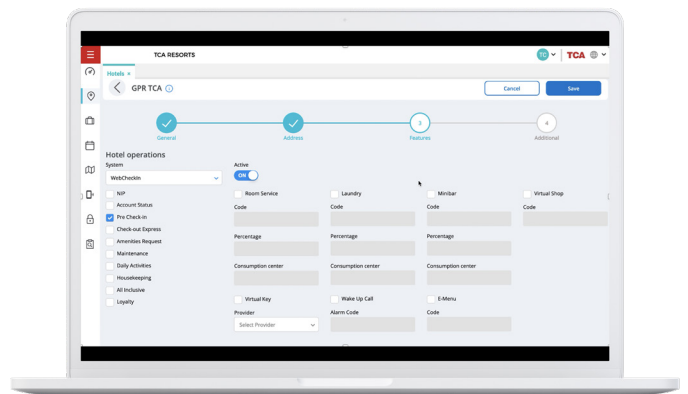

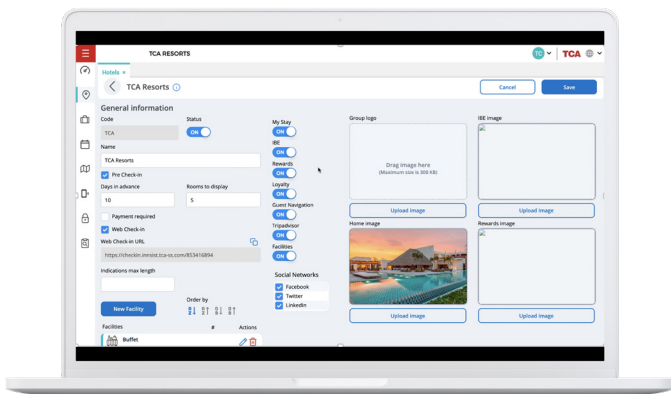

## BUSINESS DRIVEN

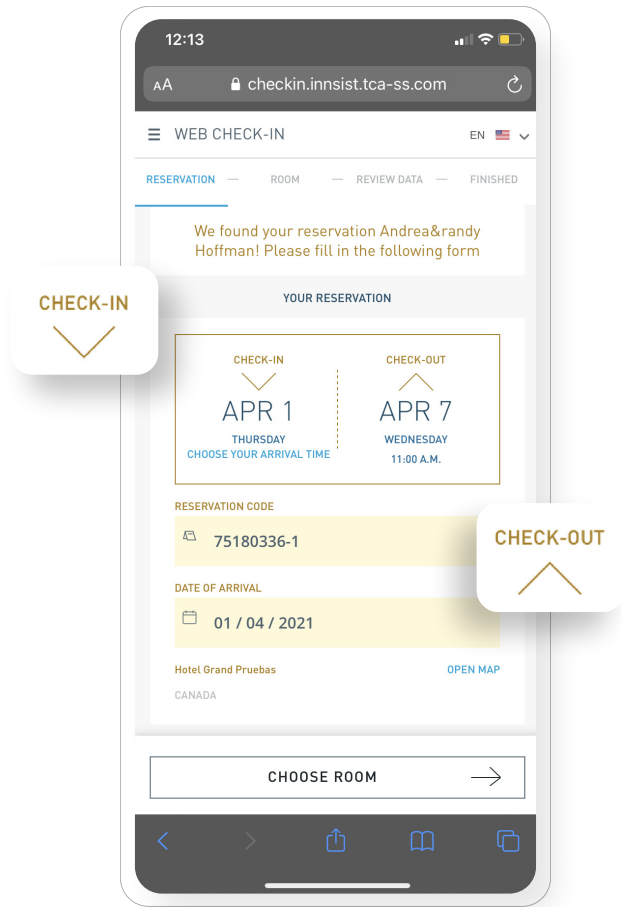

Creates an exclusive and direct pre-registration link (URL), easy to use and operate from different depth levels such as groups, brands or hotels, enabling better control and efficient management of each check in.

## FEATURES

Customized URL (by Group, Brand and Hotel)

Activate and deactivate URL (by Group, Brand and Hotel)

## GUEST CENTRIC

Simplifies the guest's pre-registration process, allowing them to check in before their arrival from anywhere and in a safe way, greatly reducing contact with staff.

## BUSINESS DRIVEN

Allows staff members to better prepare and provide an excellent experience since the guest arrival, by simplifying and making more fast and efficient the check in process.

## FEATURES

Hotel listing by city or location

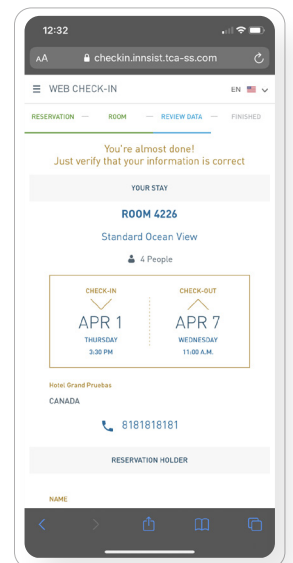

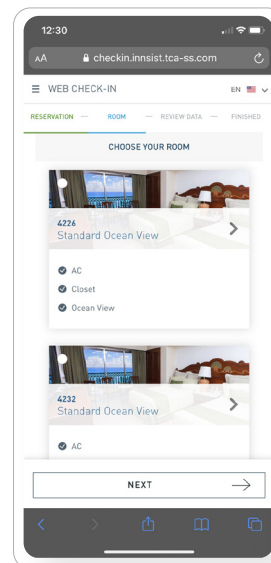

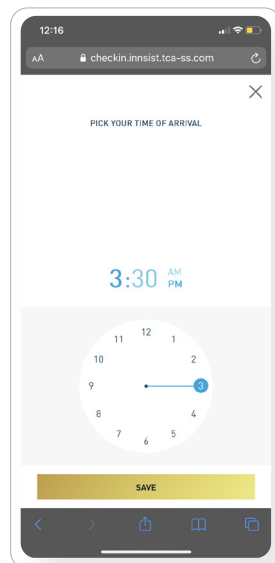

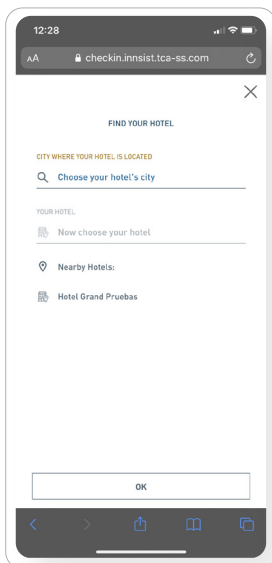

Digital guest data preload

Time of arrival

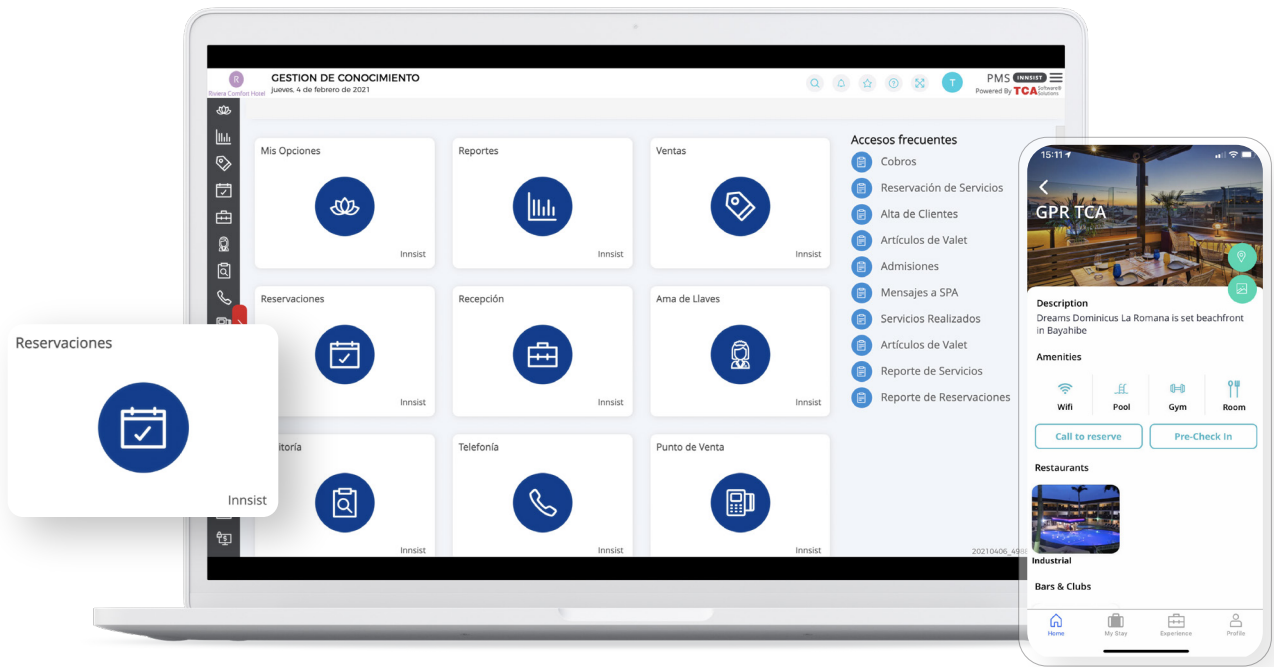

Companion registration

Pre Check In and room selection

Check In confirmation screen

### 3 PMS AND GUEST APP INTEGRATION

#### GUEST CENTRIC

Allows guests to easily access and make the check in process, by enabling a direct link from the guest mobile app.

#### BUSINESS DRIVEN

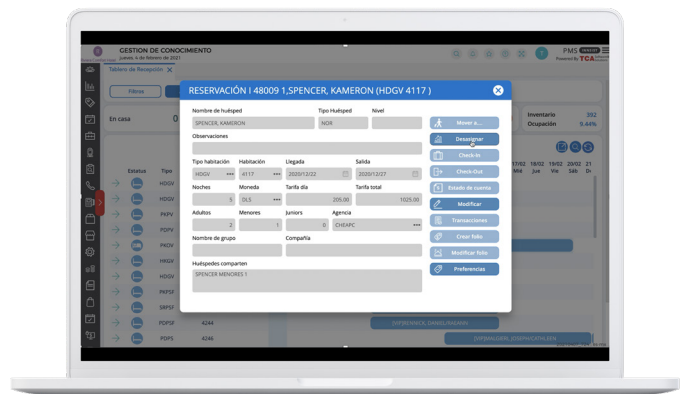

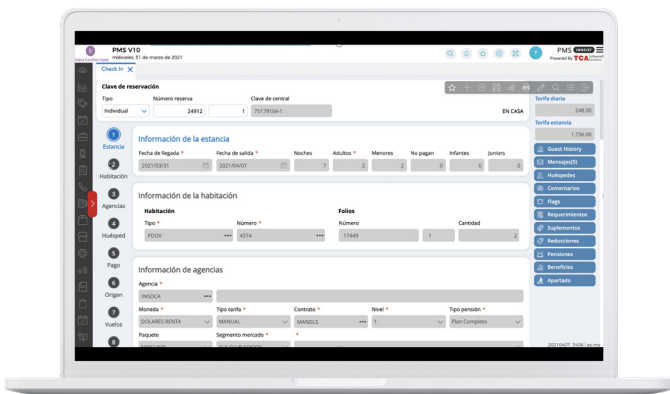

Allows staff members to have better control, visualization and interpretation of guest information related to check in, boosting a better service and extraordinary guest experiences since the moment the guest arrives.

#### FEATURES

View preloaded guest check in information directly from the PMS

Direct access to Web Check-in from Guest App

Deallocation of rooms directly from the PMS
