EVOLVE TO A CONTACTLESS EXPERIENCE

TCA Innsist® E-Menu is an interactive restaurant ordering system that connects with the POS and allows a quick, easy and contactless alternative for guests and staff to make and receive orders in a more efficient and profitable way.

GUEST CENTRIC

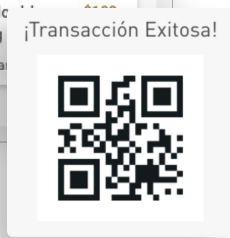

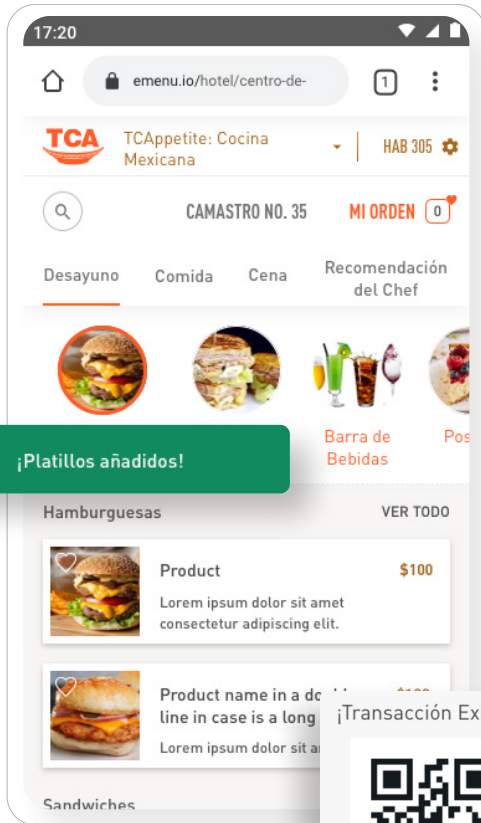

Offers a contactless, easier, quicker and engaging alternative for guests to make digital orders, adding great value to the whole restaurant experience while reducing wait times and increasing overall satisfaction.

BUSINESS DRIVEN

Automates the ordering placing process, reduces errors and improves staff efficiency allowing a quality and contactless service that leads to a long term average billing increase.

1 REMOTE FOOD ORDERING

GUEST CENTRIC

Allows a contactless and digital alternative for guests to visualize and select the items they wish to order, having complete control over his order directly from his mobile device.

BUSINESS DRIVEN

- Allows restaurants to quickly update or adjust their menu offerings and pricing to meet guest demands.
- Saves time during the ordering process by sending orders directly to kitchen through QR scanning.

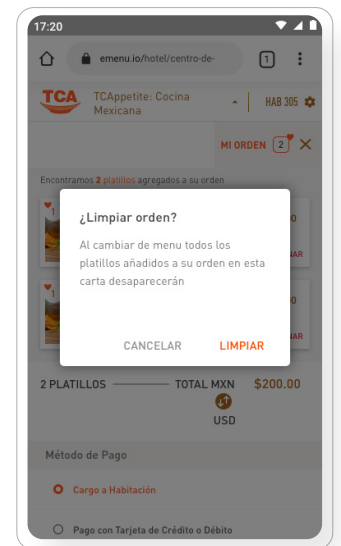

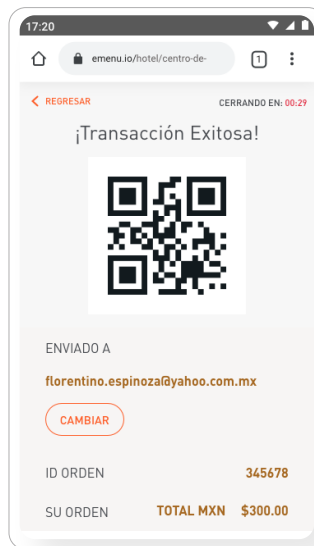

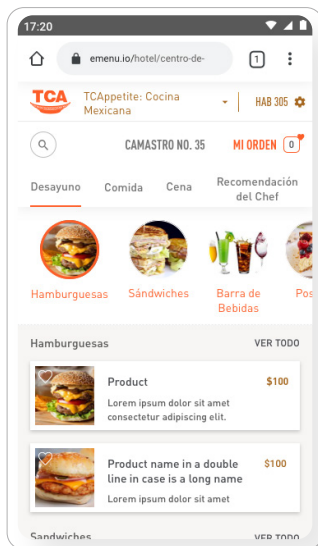

FEATURES
